

## Government Software Solutions

Our government software solutions help state and local administrations increase operational efficiency and revenue recovery while helping constituents meet their financial and civic obligations and avoid punitive measures.

### Government Software Solutions that Simplify Omnichannel Communication

Easily and effectively reach your constituents via their channel of choice.

#### Meet the Demands of the Digital Age

In today's digital age, Finvi can help you meet your constituents' demand for frictionless, digital, personal messages, such as text and email.

SMS features both automated batch and individual on-demand messages suitable for any situation.

#### Enhance Constituent Communication

The RevQ+ omnichannel communication capabilities will allow you to nurture accounts with a communication strategy based on constituent activity and account type.

From the first day a case or citation is created, you can communicate with constituents via their channel of choice (text, email, letter, phone).

#### Increase Data Integrity

The RevQ+ government software solution provides powerful skip tracing capabilities giving you instant access to public and proprietary data from thousands of proven sources.

Incomplete and inaccurate entries are automatically processed, quickly updating records with the most accurate information possible, including cell phone numbers.

### Automate, Simplify and Streamline with RevQ+

Discover what RevQ+ can do for your organization. From eliminating the burden of manual tasks to reducing the need for punitive measures, our solution can help you reach your goals.

#### Dashboards and Data Visualization

Finvi's government software solutions help you make informed decisions about your communication and workflow process by giving you a complete understanding of the entire lifecycle of an account or a case.
